A GRANTS PROJECT AT STATISTICS NORWAY
Background

Project objectives

The pilot – Maternity wards

The analysis

(Preliminary) Results

Looking ahead
• Eurostat Grants project

• GIS in new division at Statistics Norway

• The two horses:
  ◦ Accessibility of emergency services in Norway
  ◦ Choosing a GP – Close to home or close to work?
I. Develop new official health statistics to be produced by Statistics Norway on a regular basis

II. Increase the use of GIS in the production and presentation of health statistics
• Network analysis – service area
What we needed

The road network

The Norwegian population

The maternity wards
