

Geostat 3 WP2

Coordination meeting

Statistisk sentralbyrå
Statistics Norway

Stockholm 14. – 15. February 2018

Outline

- Intro
- The selected indicators
 - Discussion (based on description from UN-GGIM Europe WG DI SG 2)
 - Disaggregation
 - Results presentation
 - Feedback to WG Data integration(?)
- The choice of unit record data
 - Data
 - Year/ Period
- Template for reporting to WP 2 by each participating country
 - Initial draft for discussion
- Timetable and milestones
- Tomorrow
 - More detailed discussion on the indicators and country specific work

The selected indicators

- Discussion (based on description from UN GGIM Europe WG DI SG 2)
 - Clarifications
 - Disaggregation
 - Results presentation

11.2.1 Proportion of population that has convenient access to public transport, by sex, age and persons with disabilities

- For clarification/ limitations
 - Frequency
 - No frequency for global comparison
 - Use from Sweden's proxy indicator (once an hour from 06-20 working days)?
- Results/ disaggregation/ regional level
 - A lot of suggested disaggregation levels, what is relevant for Europe?
 - Is regional level more important than the suggested disaggregation groups?
 - You have to know which populated areas there is a deficiency in access, but do you need to know more to take relevant action?
 - To prioritize where to improve the service, it may be important
 - What regional level to produce results?
 - NUTS/LAU/grid

11.3.1 Ratio of land consumption rate to population growth rate

- For clarification/ limitations
 - Which land use/ cover classes to include
 - Only urban land or roads/airports etc?
 - Parks and playing grounds
 - Even agriculture and forestry has been mentioned
 - Which methodology for urban delimitation (also 11.7.1)
 - TERCET 1km grids for comparability?
 - National delimitations for analysing the above
- Results/ disaggregation/ regional level
 - GHSL (Global human settlement layer) and national data?
 - NUTS/LAU/Grids?

11.7.1 Average share of the built-up area of cities that is open space for public use by all, by sex, age and persons with disabilities

- For clarification/ limitations
 - Open space
 - all open public spaces including street network (as described)
 - Or just green areas?
 - For public space by all
 - Open space potentially for public use? (avoid field inventories)
 - Open space <-> population
 - How to connect the space and people?
 - What data to use
 - Can the GHSL be used also in this context? (not just for urban – but open)
 - National data sources (land use/ cover map)
- Results/ disaggregation/ regional level
 - Quality information on spaces may be difficult to obtain
 - City – same as 11.3.1

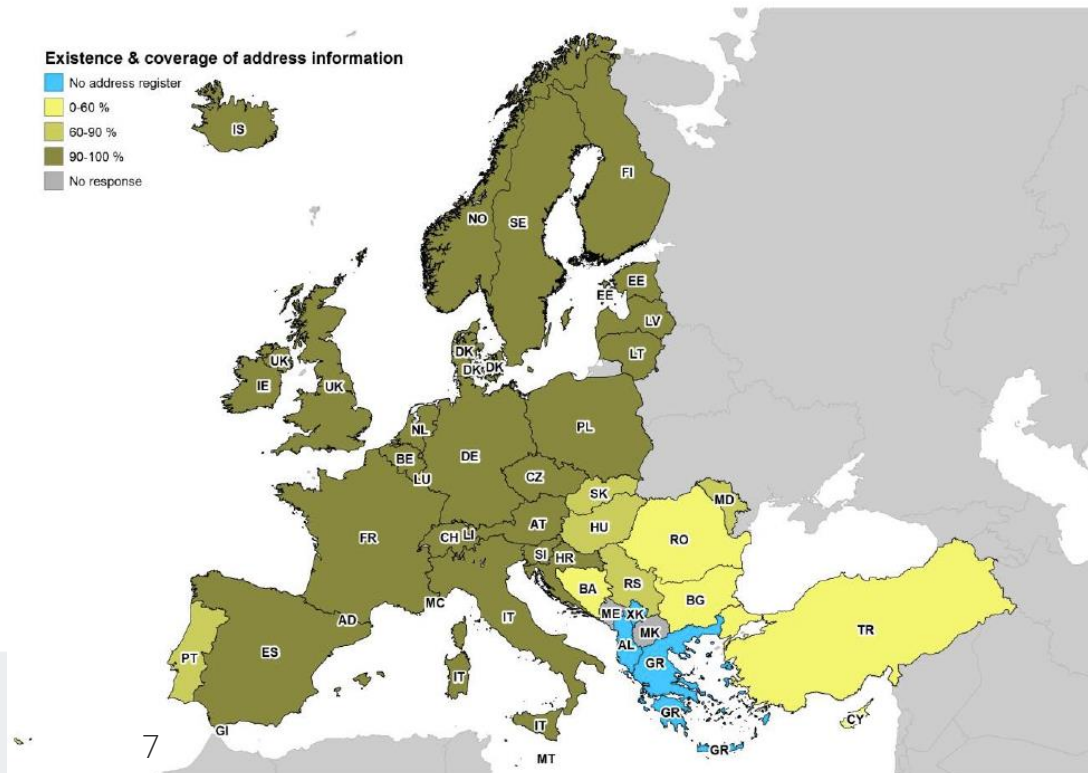

The choice of unit record data

- Data
- Year/ Period

Map 2. The existence and coverage of address information by country

Existence & coverage of address information

- No address register
- 0-60 %
- 60-90 %
- 90-100 %
- No response

Template for reporting to WP 2 by each participating country

- Initial draft for discussion

Timetable and milestones

ID	Task	2018												2019			
		Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr
		12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27
2	WP2: Testing the ESS-SGF	[Activity bar from Jan 12 to Dec 23]															
2.1	Choice of indicators and approach	[Activity bar from Jan 12 to Jun 17]															
2.1.1	Specify a plan for the work within WP 2	[Activity bar from Jul 18 to Aug 19]															
2.1.2	Contact Eurostat WG on SDG indicators (Ekkehard)	[Activity bar from Jul 18 to Aug 19]															
2.1.3	Make Initial draft indicator list	[Activity bar from Jul 18 to Aug 19]															
2.1.4	Make final indicator list	[Activity bar from Jul 18 to Aug 19]															
2.2	Choice of Census unit record dataset	[Activity bar from Jan 12 to Jun 17]															
2.3	Test of selected indicators and the round of Census 2021	[Activity bar from Jan 12 to Dec 23]															
2.3.1	Make template for report by each participating country	[Activity bar from Jan 12 to Feb 13]															
2.3.2	Testing by each country and report/ documentation with results and applicability for each country	[Activity bar from Feb 13 to Jun 17]															
2.3.3	Compiling draft documentation of the test and conclusions	[Activity bar from Jul 18 to Nov 22]															
2.3.4	Finalizing documentation of the test and conclusions	[Activity bar from Dec 23 to Jan 24]															
	Deliverables																
D 2.1	Draft: Documentation of the test and conclusions regarding the applicability of the ESS-SGF and technical prerequisites for a pan-European implementation of the SGF.	[Activity bar from Nov 22 to Dec 23]															
D 2.2	Final: Documentation of the test and conclusions.	[Activity bar from Jan 24 to Feb 25]															

- 31. Mars – WG ID, 30. June - Country reports, 30. Nov - Draft report of the test

Tomorrow

- Each country give short introduction to data availability and
- Discussion on issues raised
- Decide which countries to test which indicators
- Timetable revisited

Thank you for your attention!
